Continuation

**STEP #3**

Using long starter and a single blow from the hand, start the ball down the bore.

**STEP #4**

Using the ramrod, and steady pressure, firmly seat the ball against the powder charge. Leave no space.

**STEP #5**

Priming a Flintlock

In priming the flintlock, charge the flash pan with FFFFG powder, close, and it is ready to fire.

**STEP #5b**

Priming With a Percussion Cap

Prime or cap the muzzle-loader and it is ready to fire.

Loading a Muzzle Loader
