Ammunition

Right shell size

2 3/4" Chamber

Forcing cone

Unfired 2 3/4" Shell (approx. 2 1/2" when unfired)

During firing, hull extends to 2 3/4" to fill chamber up to forcing cone

DANGER: If shotshell is too long

Unfired 3" shell in a 2 3/4" chamber

During firing, hull extends into forcing cone and could cause the barrel to rupture

Wrong shell size

Shell in chamber
